

# EVERY ONE COUNTS

## Recycling one million cell phones

recovers 35,274 pounds of copper, 772 pounds of silver, 75 pounds of gold, and other valuable materials that are needed to make *new* electronic devices.

## Recycling one million laptops

saves enough energy to provide electricity to 3,657 U.S. homes for a full year.

# RECYCLING DROP-OFF

**Responsible  
Recycling**

R2 Certified recyclers comply with the highest industry standards developed by the EPA, major equipment manufacturers and recyclers to protect the environment, workers and data security.

IT STARTS WITH  
**YOU**
