EVERY ONE COUNTS

Recycling one million cell phones

recovers 35,274 pounds of copper, 772 pounds of silver, 75 pounds of gold, and other valuable materials that are needed to make *new* electronic devices.

Recycling one million laptops

saves enough energy to provide electricity to 3,657 U.S. homes for a full year.

RECYCLING DROP-OFF

We accept computers, laptops, tablets, cell phones, MP3 players, game consoles, printers, monitors, TVs, cables and controllers.

R2 2013

Responsible Recycling

R2 Certified recyclers comply with the highest industry standards devoloped by the EPA, major equipment manufacturers and recyclers to protect the environment, workers and data security.

IT STARTS WITH YOU
